

MY PHILOSOPHY

Each candle is born slowly, weaving together natural materials and the dried flowers from my FlowerFarm.

I grow my flowers here in Todi, in the green heart of Italy, with care and deep respect for the rhythms of nature, transforming them into small botanical details that make every creation unique.

I use soy wax or olive-oil wax, cotton wicks, and delicate natural elements — everything chosen to create a simple, authentic, and poetic product.

My candles, handmade in Umbria, are an invitation to slow down and bring a touch of botanical beauty into everyday life.

Handmade botanical candles – Umbria, Italia

BOTANICANDELS
BY SLOWLIVINGINUMBRIA

BOTANICANDELS

HOW TO USE YOUR BOTANICANDEL

- Trim the wick to 5 mm before each burn.
- Let the wax melt fully to the edges for a clean, even burn.
- Burn for a maximum of 3 hours at a time.
- Stop burning when less than 1 cm of wax remains.
- Place on a stable, heat-resistant surface.
- Do not move the candle while the wax is liquid.
- If a botanical element approaches the flame, extinguish, gently remove it, and relight.
- For the CandleBouquet : Never light the candles while they are in the bouquet. Always remove them before lighting and use them as a normal candle.

IMPORTANT INFORMATION

Our candles are handmade using natural waxes and dried botanical decorations.

The flowers are grown without pesticides on my FlowerFarm in Todi.

Each piece is unique and may behave slightly differently while burning.

To ensure proper and safe use, please read the instructions carefully and keep them for reference.

The botanical decorations are natural and may react differently to the heat

RESPONSIBILITY & SAFE USE

The user is responsible for the correct use of the candle and for following all safety instructions.

For more information, terms of sale, liability notes and applicable regulations, please refer to the general conditions at :

WARNINGS

- Never leave a candle unattended.
- Keep away from flammable materials.
- Keep out of reach of children and pets.
- Decorative elements may catch fire if brought too close to the flame. Always use with caution.
- Distance between candles: ≥ 10 cm.
- Trim the wick.
- Avoid drafts.
- Use on a heat-resistant surface.
